

Make a Resolution That Will Last

Opening a retirement savings account through MaineSaves is one of the simplest and most impactful resolutions you can make — and it's easier than you might think!

3 Simple Steps to Start Saving Today

Over 3,000 of your fellow employees are participating in MaineSaves. Why not join them and start on your path to financial freedom?

★ **Opening an account isn't hard. There are 3 decisions you need to make:**

1 How much to save

Pick a dollar amount.

Not sure what to pick? Start with a small amount, like \$25 per paycheck.

2 Which provider to sign up with

Compare. Check each provider's fund performance, fees, service, and tools and resources. You can find helpful info on MaineSaves457.com under **My Investment Options > Compare Providers**.

Or pick any one. All three providers are comparable, and what they offer is similar.

3 Which funds to invest in

Review and choose. You can find lists of the options and fund fact sheets for each fund on MaineSaves457.com under **My Investment Options > InvestmentOptions**.

Or talk it through. Your provider can give you personalized advice.

Ready to open your account?

Visit "Enroll Now" on MaineSaves457.com to get started.

Remember, no decision is set in stone. You can change your contributions, your provider and your investments. What's most important is to open an account and get your future underway!
